

Went along to the Jigsaw Stables for a half hour diagnostic session on Bob with some friends.....Really enjoyed it.

Learnt loads about my position and felt amazing after dismounting. Now I know how it should feel, I know what I'm aiming for when riding.

Sue and her helpers were all very welcoming and helpful. Will be back again soon. Thanks to all, especially Bob X

“Jan Camp” has been organised by a longstanding group of friends and held at my yard for many years. I am always looking for ways to make our camp even better,

Sue Carr has brought Bob the Cob for a day during camp for the last two years. I kept his first appearance a surprise, his return visit was by popular demand!

Sue is a dedicated, warm, insightful instructor who makes all her pupils feel at ease. Our riders found she was quick to establish an important point for them to improve but weren't overloaded with too much to remember. The feedback I received following our "Bob" day was really positive and everyone was keen to put it into practice on their horses.

I initially booked Sue for camp members, but many of my regular clients asked to be included and demand was so great Sue continued into the evening fortified with regular cups of tea and homemade cake!

Sue worked so hard and both her and Tim her husband are very pleasant to have around. I welcome Sue onto my yard at any time and recommend her highly to my clients.

Testimonial by Jan Lee BHIII

The girls really enjoyed the CPD training with Bob as they could really focus on themselves.

Ordinarily the staff at the TRC are retraining thoroughbreds, and habits form through predominantly focusing on their horses way of going. The unpredictably of the unschooled thoroughbred does not always allow the girls to focus on their strengths and weaknesses.

The training session with Sue and Bob gave the staff an insight into their imbalances, and solutions to work on when they are riding.

We will hope to do this on a yearly basis to enable the girls to continue the good work that Sue and Bob have started.
